Boutique Needs

Our parenting clients work hard attending classes, completing homework, and earning "Care Net Cash" which they can then spend on items for themselves and their children.

Drop off items or use your Amazon account to ship directly to a center of your choice.

You can also benefit our clients through smile.amazon.com. Designate "Care Net Pregnancy & Family Services of Puget Sound" as your charity of choice.

Hope for a Family

When Elizabeth and her husband found out they were expecting, they were so excited but nervous about becoming parents. Elizabeth is originally from Panama and was missing her mom and sisters, wishing they were here to walk through the pregnancy with her and her husband.

And, with the pandemic in full swing, Elizabeth felt isolated and alone. That’s when she came to Care Net in Kenmore for childhood education and parenting classes.

At Care Net, Elizabeth not only received baby supplies and education, but she received something even more important—a friend and mentor whom she describes as a sister. The couple recently welcomed sweet little Saya (pictured below) into their family and couldn’t be more excited to be parents! Elizabeth is continuing to receive support at Care Net and we will pass on your words to her.

If you would like to share words of gratitude and congratulations with Kim, please email administration@carenetps.org or text 253-383-6033 and we will pass on your words to her.

Hope for Healing

Zoe* came to Care Net to confirm her pregnancy. Though she planned to carry this pregnancy, when we asked her if she has ever had an abortion, she lowered her face and quietly said “one.” The client advocate gently asked how she felt about it, and she began to cry. Zoe was broken and angry; she was angry at God for things that had happened in her life, and convinced God wanted nothing to do with her now that she'd had an abortion.

Our client advocate gently pointed her to our loving Heavenly Father and shared about our Healing Tide ministry where she could talk about her abortion in a safe place and find healing.

As we prepared for the ultrasound, it was obvious Zoe was nervous that the baby wouldn’t be okay. This is a common fear among women who’ve experienced an abortion. But on the ultrasound screen we watched with joy as her 11-week-old baby wiggled, alive and well.

Before Zoe left her ultrasound appointment, we were able to pray with her. She is now enrolled in our Healing Tide program, processing her past abortion and learning more about the forgiveness she can experience through the cross of Christ and the love of our Heavenly Father.

The Courage to Carry

Cecelia* couldn’t believe the news. How could she be pregnant? Already a mom and currently on birth control, she was shocked at the news.

The father of the baby was adamant that she have an abortion, but Cecelia wasn’t so sure. She was considering it, but only if she was very early in the pregnancy.

However, as Cecelia talked to the client advocate at Care Net and processed a previous abortion, she began to consider carrying more and more seriously. Through tears, she shared the pain and regret she feels about her previous abortion and, through those tears and with new determination, Cecelia chose life. She decided she couldn’t have another abortion no matter how far along in the pregnancy she was.

Though we don’t yet know if the father of the baby has had a change of heart, we know Cecelia and her children won’t be alone in this journey. We will be there to support her in every way we can as she bravely welcomes this precious little one into her family.
